Financial Aid Refunds

Students that are receiving a financial aid refund may set up a refund profile through StarNET to have their funds returned to them in the form of a direct deposit to a checking or savings account. In order to have your funds direct deposited, your refund profile must be set up by Monday, January 9. For students who choose not to have funds direct deposited, a check will be issued, printed, and mailed to the students' permanent address on file.

Students will receive an electronic notification through Senators Mail when refunds have been processed either by direct deposit or mailed check. Students must monitor their Senators Mail account for communications. Staff in Financial Aid or the Cashier Office will not be able to determine when your credit balance will be processed as this is an automated process.

The Cashier Office will begin disbursing financial aid refund balances February 3. Students must have attended all classes and the attendance must be reported before credit balances are issued. Attendance is mandatory to be eligible for Federal Title IV aid.

Attendance status: Students may view their attendance status through StarNET. Log into StarNET. Select Student Menu. Select Student Records. Select Attendance Reporting. Financial aid refunds are only processed for students whose attendance has been confirmed in all course(s) enrolled.

Returned Direct Deposit: Students are notified through Senators Mail if a direct deposit is returned for any reason. The student must correct the account information in their refund profile in StarNET before funds may be direct deposited in the future. WSCC Staff does not have access to your account information or refund profile. For a returned direct deposit, a check will be printed and mailed. Allow 5-10 business days for processing.

Returned checks: Students are notified through Senators Mail with additional instructions.

Lost checks: A lost check may be reissued after 14 business days (excluding holidays) upon presenting an Indemnity Bond (completed, signed, and notarized) to the Morristown Cashier Office.

Provision for Books and Supplies: Students who have authorized aid in excess of tuition and fees as of January 9, 2017 are eligible to receive an advance of funds to apply toward the purchase of books and supplies. The advance is the lesser of the student's credit balance or \$600. Only students meeting all of the eligibility requirements prior to this date qualify for this provision. All recipients of a book advancement will receive an e-mail notification through Senators Mail once the book advancement has been processed.

Students are awarded financial assistance under the assumption that the student will attend the entire period for which assistance is awarded. If students withdraw, cease attendance or never attend courses for which they are scheduled to begin, they may no longer be eligible for the amount of aid originally awarded or disbursed. This may result in a repayment of funds, including the advance for books and supplies, to the institution.

The remaining balance of aid in excess of tuition and fees is scheduled to be disbursed beginning February 3, 2017. Attendance must be reported in all courses prior to the aid being released. Any further questions regarding balance of aid should be addressed to the Cashier's Office.

NOTE: Only In-State Tuition, Technology Access Fee, International Education Fee, and Out-of-State Tuition are Refundable Fees.

Refunds occur when a student drops a course or courses which result in an adjusted cost associated with the course(s) dropped. Fees which may be adjusted are in-state tuition, technology access fee, international education fee, and out-of-state tuition.

I. Situations which may result in an adjusted cost and a corresponding refund:

1. Dropping a course(s) which results in a class load of fewer hours and results in a lower cost.
2. Withdrawing from the college.
3. Cancelled classes by WSCC. Not subject to prior notification.
4. Called to active military duty or National Guard service during the term.
5. Death of a student during the term.

II. Fee adjustment calculation (cost adjustments):

1. Fees are adjusted 100% up to the first day of the semester.
2. Fees are adjusted 100% due to cancelled classes.
3. Fees are adjusted 100% due to withdrawals as a result of being called to active military duty or National Guard service during the term after submitting appropriate documentation.
4. Fees are adjusted 100% due the death of a student during the term.
5. Course(s) dropped or student withdrawals occurring on or after the official start dates of the semester may result in an adjusted cost. See chart above for refund dates and deadlines.

6. Costs are re-calculated based on adjusted enrollment:

- a. Courses currently enrolled are charged 100% for all required costs plus
- b. 25% or 75% of costs associated with course(s) dropped and the dates the course(s) were dropped.
 - 75% refund period: charged 25% of costs of dropped courses
 - 25% refund period: charged 75% of costs of dropped courses

7. A refund is the difference between the cost of originally enrolled hours and the adjusted cost as calculated in #6 above.

8. Refunds will only occur if the newly re-calculated costs are less than the original charges/costs paid.

9. Not all drops/withdrawals result in a fee adjustment.

III. Swapping courses on or after the official start date of the semester may result in additional penalties being charged to a students account for non-refundable fees.

Remember ALL fees are NON-REFUNDABLE except in-state tuition, technology access fee, international education fee, and out-of-state tuition.

Try Distance Education!

DISTANCE EDUCATION OPPORTUNITIES

Walters State offers learning opportunities for students who may not wish to travel to a Walters State campus for all classes. Several types of distance learning opportunities - **video streaming courses, Walters State web based (online) courses, hybrid courses, desktop video courses, and TN eCampus (previously called RODP/ROCC) courses** are offered this semester. For more information about these distance-learning opportunities, please come by the Division of Distance Education in room 126 of the College Center, or call 585-6996.

COLLEGE EXPRESS

The Adult Learner College Express Program is a program designed for the working adult to obtain general education core requirements within multiple degrees. It is an accelerated format that typically starts with a cohort group. Most classes meet either one or two nights a week for approximately three hours with most students completing 12-14 hours in a semester.

VIDEO STREAMING COURSES

Video Streaming courses (VID) follow traditional class meeting schedules, while providing students the opportunity to attend class sessions at one of four Walters State campuses (Greeneville, Sevierville, Tazewell or at the campus in Morristown). *Video streaming courses are good choices for students who may be unable to travel to the main campus for a particular course.* Instructors can deliver instruction from any of the four campuses to students at all locations. Students at the distance locations can see and interact with the instructor and students at other sites via closed circuit television technology.

WALTERS STATE WEB BASED (ONLINE) COURSES

Web based (online) courses offer students the opportunity to complete all or part of the work for a particular course via the Internet. These courses may follow a modified traditional class schedule or may meet only at selected times throughout the semester. To complete all requirements for these courses, students must be able to access the Internet. Students may access the Internet on their own or through computer facilities at the college's library on the Morristown campus or at the satellite campuses in Greeneville, Sevierville, and Tazewell. The college is not responsible for obtaining or maintaining students' individual equipment or software necessary for accessing the Internet. Web based classes are good choices for self-starting and self-motivated students. **Classes that are offered via the internet are defined with a section number of W11-W94.**

Please be advised that separate fees will be assessed for students enrolling in these courses. In addition to the fees assessed for the classes, there will be a course delivery fee of \$10 per credit hour.

HYBRID (HYD) COURSES

Hybrid courses combine traditional on-ground classes with web (online) classes by dividing class time between traditional and online instruction. Students may utilize home computers or computer labs available on each Walters State campus to access instruction and to submit assignments. Hybrid classes are good choices for students who need to limit the number of trips to campus, but who also like having some face-to-face contact with classmates and the instructor. **These classes are defined with a section number of H11-H94.**

Please be advised that separate fees will be assessed for students enrolling in these courses. In addition to the fees assessed for the classes, there will be a course delivery fee of \$10 per credit hour.

DESKTOP VIDEO COURSES

Desktop Video Courses (DCV) offer students the opportunity to complete the work for a particular course in a face-to-face environment over the Internet. Desktop video courses are a good choice for students who need or want to take classes off campus but need the structure of the classroom. To complete all requirements for these courses, students must be able to access the Internet via a DSL or higher broadband connection from home or another location. Students will also need a computer with a webcam, a speaker, and a microphone; or, students will need a tablet device. A USB headset with microphone is recommended for use with the computer, and ear buds are recommended for use with mobile devices. Students may access the Internet through computer facilities at the college's library on the Morristown campus or at the campuses in Greeneville, Sevierville, and Tazewell, or anywhere they have access to the Internet. Students who are using their laptops at Walters State to attend the course are encouraged to use a USB headset in consideration of others within listening distance. If students are using a Walters State owned computer to attend the Desktop Video Course, they are responsible for obtaining or maintaining students' individual equipment or software for accessing the Internet. Most Desktop Video classes do not require any on-ground visits to any campus. Coursework is completed through desktop webinars and eLearn. **These classes are defined with a section number of A11-H94.**

Please be advised that separate fees will be assessed for students enrolling in these courses. In addition to the fees assessed for the classes, there will be a course delivery fee of \$10 per credit hour.

TN eCAMPUS COURSES (previously called RODP/ROCC)

TN eCampus (previously referred to as RODP) courses are offered as part of the TN eCampus program. Students interested in these courses should contact Vicky Marshall at 423-585-6800. Students can also obtain information concerning this program at the TN eCampus website: www.tnecampus.org. Please be advised that separate fees will be assessed for students enrolling in these courses. In addition to the fees assessed for the classes, there will be a course delivery fee of \$62 per credit hour (based on 2016-2017 rate). Out-of-state students must pay out-of-state tuition in addition to the regular maintenance fee. Hepatitis B Immunization Health History Form

Name: _____ SSN# _____
Last First MI

Date of Birth: _____ Telephone Number: (____) _____
Month / Day / Year

The General Assembly of the State of Tennessee mandates that each public or private postsecondary institution in the state provide information concerning hepatitis B infection to all students matriculating for the first time. The required information below includes the risk factors and dangers of the disease as well as information on the availability and effectiveness of the vaccine for persons who are at-risk for the disease. The information concerning this disease is from the Centers for Disease Control and the American College Health Association.

The law does not require that students receive vaccination for enrollment. Furthermore, the institution is not required by law to provide vaccination and/or reimbursement for the vaccine.

**A. Hepatitis B (HBV) Immunization
[TO BE COMPLETED BY ALL NEW STUDENTS]**

Hepatitis B (HBV) is a serious viral infection of the liver that can lead to chronic liver disease, cirrhosis, liver cancer, liver failure, and even death. The disease is transmitted by blood and/or body fluids and many people will have no symptoms when they develop the disease. The primary risk factors for Hepatitis B are sexual activity and injecting drug use. This disease is completely preventable. Hepatitis B vaccine is available to all age groups to prevent Hepatitis B viral infection. A series of three (3) doses of vaccine are required for optimal protection. Missed doses may still be sought to complete the series if only one or two have been acquired. The HBV vaccine has a record of safety and is believed to confer lifelong immunity in most cases.

CHECK ONE:

_____ I hereby certify that I have read this information and **I have received the initial dose of the Hepatitis B vaccine.**

Date of initial dose of Hepatitis B vaccine: ____ / ____ / ____

_____ I hereby certify that I have read this information and **I have elected not to receive the Hepatitis B vaccine.**

Signature of **Student** or **Parent/Guardian**
