

QEP Development Team

Working Group Minutes

Summer 2017

Members: Avery Swinson, Chris Baker, Connie Earls, Melissa Duff, Paul Ludwig, Mike Campbell

Over the course of summer 2017, the QEP working team met consistently to develop the main components of the QEP. The team considered student, faculty, and staff feedback when constructing the actions to be implemented. The feedback came from numerous focus groups and surveys. In addition, the team considered institutional data and current literature to assist with the development of the plan.

The team kept the entire QEP Development Team and SACSCOC Leadership Team updated on progress and garnered feedback and suggestions from both groups.

Students were also involved in constructing the vision statement of the QEP and creation on QEP awareness materials.
