Walters State Honor/Memorial Tree Program

CREATE A LIVING MEMORIAL

The Honor/Memorial Tree Program began in 2006 as a way to create a living memorial and to enhance the Walters State Arboretum collection. The arboretum consists of deciduous and evergreen specimens native to the region.

This program allows donors the opportunity to choose a tree from a list of recommended trees for a one-time donation of \$300.00. The tree can be named "In Memory of" or "In Honor of" a loved one, group, or event. The \$300.00 donation includes installation, a permanent engraved plaque, and a survival guarantee for the average life of the tree. Special requests for unique, non-native trees will be considered; however, an additional donation may be necessary to cover the extra cost of the tree.

The college's Facilities Management and Agriculture/Production Horticulture departments will determine a planting site that is best suited to the survival of the tree on the designated campus of your choice.

While trees may be ordered at any time, they will only be planted during their dormant phase in the late fall and early spring.
